WEATHER INDICATIONS.

For the Middle Atlantic States tall For the Middle Atlantic States fair weather, slight changes in temperature; winds generally from south to west. For Saturday, fair weather is indicated for New England, with slight changes to temperature; slightly warmer, fair weather is indicated for the Middle Atlantic and South Atlantic States.

Thatcher, Primrose or West's Mammoth Minstrels demonstrated again last night that a first-class minstrel performance will always draw crowded houses in this city, forci's Opera House was filled long before the opening of the entertainment. The old familiar fuces of Thatcher, Primrose, Biffy Blee, West and other favorities aroused an otherwise and four the manifested fiself in frequent applause and roars of inughter. The opening part was well done, the ballads being utledy sing, and all were encored. The specialists are also good, the Nelson family of acrobuts performing marvels of strength and agility. Batton's dogs gave an interesting and amusing exhibition. George Thatcher was of course a prominent attraction, while Barney Fegan and the comical wonders, Griffin and Marks, brought down the house. The company will give three more performances here, one to night and two to-morrow. All who enjoy refined negro minstreley should go to see this party.

One of the very best dramante performances ever given in the Dime Museum was witnessed last night by quite a large and ener. Miss Helene Adell and the Park Theatre Company in "One night in Rome" presented a theatrical entertainment worthy the patronage of any andience. It was a general expression that it was the finest and most fluished acting that had been of fered the public this senson at this popular resort, to see them; they remain only two rights more. Next week those universal favorites, Stephens and Gray, appear in their great new play of "Without a Home" the scenery and appointments all new, painted expressly for them in New York. Thermometer Scadiogs. Thermometer readings, October 19: 3 a. m., 49°,1: 7 a. m., 45°,0: 11 a. m., 62°,8.
